Curriculum Student Feedback

Introduction

The University Grant Commission conferred Autonomous status to Pillai College of Arts, Commerce & Science in 2018. Our Institution has adopted 'Outcome based Education'. The curriculum of all programs are designed by taking into account the Program Outcomes & Program Specific Outcomes which are in tune with the vision & mission statements of the Institution The curriculum is designed very thoughtfully after studying the latest technological changes and the opportunities existing in regional and global level with all necessary fundamentals. The Institution implements the well designed syllabus with desired learning outcomes by using innovative teaching learning pedagogies. We evaluate our students' performance on a continuous basis .The Institution ensures effective curriculum delivery through a well planned and documented process. A structured feedback is taken on continuous basis from all our stakeholders which helps us in further improvement. Syllabus revision is being paced cautiously and steadily by the Institute. First, Syllabus is discussed in a meeting of board of studies in-house members. Secondly, respective Board of studies members discusses changes to the entire syllabus in their meetings. In those meetings, industry experts, alumni, and teachers from other colleges contribute their ideas. Finally, the syllabus is put to the Academic Council for approval.

Different stakeholders have been invited to provide feedback on the syllabus. Through this process, better content is introduced at each stage of revision. As a result of feedback from students, we are able to identify any shortcomings in the syllabus or value additions that were required.

.

Mechanism of the feedback

- A Google feedback form was created with relevant questions relating to different particulars of the curriculum.
- The link of the form was shared to the candidates through social media platforms where they have to fill the same within the stipulated time.
- The link was active for a month
- The feedback was collected for quality improvement of the curriculum.

Aspects of the questionnaire:

- Relevance of Curriculum to programme
- Conceptual clarity and practical understanding from the curriculum

- Sequence of the courses in the curriculum
- Electives offered in terms of their relevance to the specialization streams
- Availability of learning material in the library
- Skilling for employability offered by curriculum
- Consideration to Competitive age given in curriculum

Curriculum Feedback of Employers

Introduction

Employers' feedback serves as a pivotal catalyst for enhancing the educational institution's curriculum quality. This feedback not only facilitates students in discerning anticipated workplace challenges but also fosters ethical problem-solving skills. Additionally, it unveils insights imperceptible to educators, thus aiding in curriculum refinement. Consequently, students are empowered to excel in employer-demanded competencies. To facilitate this process, our institution's placement officer collaborates with visiting companies to solicit feedback on the syllabus. The feedback form includes pertinent inquiries concerning skill development and employability, ensuring alignment with industry requisites.

Mechanism of the feedback

- A google feedback form was created with relevant questions relating to different particulars of the curriculum.
- The link of the form was shared to the candidates through social media platforms where they have to fill the same within the stipulated time.
- The link was active for a month
- The feedback was collected for quality improvement of the curriculum.

Aspects of the questionnaire:

- Meeting basic knowledge required for the career and employment
- Relevance of curriculum in contemporary times
- Application of learned skills at work
- Satisfaction level as per requirement of employment

Summary

Total Responded: Employers 29

Summary of results:

Curriculum Feedback from employers Academic Year 2023-24

There were 29 responses and 6 suggestions received from the employers on curriculum

feedback.

Suggestions:

1. Practical knowledge and market insights are essential.
2. Students should be exposed to more group discussions, presentations, case studies, and practical applications to familiarize themselves with corporate behavior.
3. Include content on digital marketing and entrepreneurship management.
4. More practical work to be assigned.
5. Digital marketing lacks coverage on social media engagement, campaign creation, and influencer marketing.
6. Please start Real Estate education also.

100% (Very good +Good +Satisfactory) of the employers gave positive responses for the relevance of the curriculum in contemporary times whereas 0% responded there is scope of improvement. 100% (Very good +Good +Satisfactory) of the employers responded positively towards the curriculum that meets basic knowledge required for employment whereas 0% responded there is scope of improvement with the same. 100% (Very good +Good +Satisfactory) of the employers gave positive responses for the Skills learnt by students are applied at work whereas 0 % were satisfied responded there is scope of improvement with the same.100% (Very good +Good +Satisfactory) of the employers responded positively towards the satisfaction level of the curriculum as per requirement of employment whereas 0% suggested improvement for the same.

Data Analysis

Relevance of the Curriculum in contemporary times	Percentage	
Very Good	48.28%	
Good	37.93%

<u>Curriculum Feedback from Outside Teachers</u>

<u>Introduction</u>

Our Institution has designed a systematic procedure for development, revision and implementation of curriculum of the various existing & new courses in the Institution. Institution is introducing a series of new programs & value added courses to be at par with the technological development in the country. The stakeholders play an important role in developing curriculum & course content. We consider and value the feedback of our stakeholders & make continuous changes in our curriculum.We take feedback from outside college teachers on design and review of syllabus & necessary correction is done from time to time.

<u>Mechanism of the feedback</u>

- A google feedback form was created with relevant questions relating to different particulars of the curriculum.
- The link of the form was shared to the candidates to fill the same within the stipulated time.
- The link was active for a month
- The feedback was collected for quality improvement of the curriculum.

<u>Aspects of the questionnaire:</u>

- Ranking the course contents on the basis of
- Entrepreneurship Skills
- Employability
- Skill Development
- Recent Trends in Syllabus

Curriculum Feedback Alumni

Academic Year 2023-24

Introduction

Feedback of the Alumni is an essential component for analysis and improvement in the higher education academic culture. Alumni are the most important evaluators of an outcome-based curriculum because only they can match their experience of the curriculum against the demands of their current roles. The Feedback Committee of the college collects feedback from the Alumni pertaining to the varied aspects of the curriculum studied. The feedback forms have been designed with the help of Google forms and shared with the alumni. They are required to submit their responses to the statements and are given choices ranging from Scope for Improvement (1) to Very Good (4). The feedback thus received is then analyzed by the Committee and shared with the Principal, IQAC and the faculty for discussion.

Mechanism of the feedback

- A google feedback form was created with relevant questions relating to different particulars of the curriculum.
- The link of the form was shared to the candidates through social media platforms where they have to fill the same within the stipulated time.
- The link was active for a month
- The feedback was collected for quality improvement of the curriculum.

Aspects of the questionnaire

- Content of course and relevance of units
- Electives offered in terms of their relevance to the specialized streams
- Curriculum meets basic knowledge required for the career
- Usefulness of learning experience in career

Summary:
Total Responded:

Programme Name	Responses
B.A.F.	101
B.A.M.M.C.	5
B.Com.	74
B.F.M.	42
B.M.S.	102

Action Taken Report on Curriculum Feedback 2023-24

Students Feedback

Suggestions, Recommendations and Action Taken

Sr No	Suggestions by Students	Recommendations by Autonomy Monitoring Committee	Action taken by coordinators
	Bachelor of Commerce (Regular)		
1	Field Visit to be conducted outside Maharashtra.	Consider expanding field visits beyond Maharashtra to enhance students' exposure to diverse geographical and cultural contexts.	Field visits have been diversified to include locations outside Maharashtra, enriching students' learning experiences with broader perspectives and insights.
2	We want Internship to be part of our curriculum too as it is in B.Sc. Computer Science	Internships as a valuable component of our curriculum, similar to B.Sc. Computer Science programs, to provide students with practical work experience.	We have integrated internships into our curriculum to ensure students gain hands-on experience, aligning our program with industry standards and enhancing career readiness.
	B.Com. Accounting & Finance		
2	More avenues to learn basic technical subjects	Provide additional opportunities for students to learn fundamental technical subjects related to software.	We have offered Tableau and Python

3	We want our college to provide us with latest finance technology programs	Advocate for the introduction of cutting-edge finance technology programs at our college.	MoU with ISBC to offer Diploma in fintech
4	Swayam /NPTEl to be part of our Curriculum	Inclusion of Swayam and NPTEL courses as part of our curriculum to broaden our learning resources.	We are actively working towards integrating Swayam and NPTEL courses into our curriculum to provide students with additional learning opportunities and resources.
	Bachelor in Financial Markets		
5	We want to assess our skills by a certified body so as to understand our learning gaps and improve our skills further	Propose the establishment of a certification program by a recognized body to assess our skills, identify learning gaps, and enhance our skills further.	Association with Bombay stock exchange check my skills programme
6	We want our college to give us opportunity to work on Finance simulation Labs	Request the implementation of Finance Simulation Labs at our college to provide practical learning opportunities.	Association with National institute of securities market to explore set up of simulation lab
7	We want practical financial market training to be included in our curriculum		
	Bachelor of Business Administration		
7	Partial study here and partial abroad so that we can learn global content of our subjects	Propose a blended approach to education that includes opportunities for partial study abroad, enabling us to access global perspectives on our subjects.	Association with Corporate Gurukul and National Institute of Singapore
8	We really enjoy using business simulation. More modules on the concepts which can be used in simulation software	Advocate for the development of additional modules focusing on concepts applicable to business simulations,	We are actively pursuing the expansion of modules that integrate concepts suitable for business simulations, enriching our

		enhancing our learning experience.	educational experience and practical application of theoretical knowledge.
9.	More specializations should be added for BBA students	Add more tracks in the BBA programme	Following tracks are included in BBA: Project Management, Logistic and Supply chain management, Entrepreneur and family business management and Sports management
	BAMMC		
9	We should be given practical implications of the course.	Emphasize the incorporation of practical implications throughout our course to enhance real-world relevance.	Priority given to the students to participate in organising different events in the campus as well as social events outside the campus.
	B.Sc. Economics		
12	We, B.Sc. Economics students would like some Professional Certification to be integrated with our curriculum like BBA students get HBS Certification	Integration of professional certifications into our B.Sc. Economics curriculum, similar to how BBA students receive HBS Certification, to enhance our career prospects and skill set.	Professional Bodies like NISM and BSE Check my skills certificate courses are offered to the students and BFSI sector skill council of India collaboration is in pipeline.
	B.Sc. CS		
13	We should get opportunity have hands on in developin softwares	Promote and encourage students to engage in software development activities.	Students are part of centre for smart system wherein faculty assist students in developing software
	B.M.S		
14	We should be given more practical idea of how retail operations really work	Enhance understanding of retail operations by providing practical insights into their real-world dynamics.	Collaboration with Tata Trent Ltd Zudio is in pipeline to explore the world of Retail
	BSc IT		

| 15 | Give us an opportunity to learn finance related concepts which will help us in real world | Provide opportunities for students to learn finance-related concepts that are directly applicable to real-world scenarios. | A 30 hour online course on financial planning was conducted to help students in learning real world personal financial planning |

Peer Teachers from Outside College

Suggestions Recommendation and Action Taken

Class and Sem	Subject	Suggestion	Recommendation	Action Taken
FYFM Sem I	Indian Banking and Insurance System	Include bank and insurance company visit	To correlate the theoretical concept with practical working, field visits should be included or project should be given on the basis of field visits	Field visits made mandatory
SYFM Sem IV	Foreign Exchange Markets	Include recent trends in foreign exchange market	Foreign exchange market is dynamic is nature. One chapter should be based on recent trends in foreign exchange market	One module is added for recent trends in foreign exchange market
TYBT Sem VI	Agri biotechnology	Emerging topics such as the role of microbiomes in plant health and productivity could be added and expanded.	If the nature of course demand inclusion of emerging topics then it should be included.	Already included in earlier semester, hence no action taken.
M.Sc. DA Sem II	Big Data Analytic	Enhance student skills in Big Data Analytics	Include topics that will help students in enhancement of skill sets	DSDE introduced the certificate course related to data visualization and cloud computing etc.

Employer

Action taken

Suggestions	Recommendation	Action taken
Career Readiness Programs to be offered to students	Implement career readiness programs to prepare students for professional success.	Department of Skill Development & Entrepreneurship offered a free 30 hour online certificate program on Career Readiness
Foreign languages should be offered to students to improve global competency	Introduce foreign language courses to enhance students' global competency and cultural understanding.	Our Institution conducted a series of certification programs in different foreign languages like **Arabic** **French** **German** **Japanese** **Spanish** **Korean** **Mandarin**
